

Our Innovations, Your Business Solutions

Business Process Automation

A person in a brown suit is shown from the chest down, holding a tablet. The background is a dark blue and green grid with glowing circuitry and a brain-like shape made of circuitry. The overall theme is technology and automation.

INFOTEST LAB is a leading global Information Technology, Consulting and Business Process Automation. We harness the power of Intelligence Automation, Cognitive computing, Cloud, Digital Quality Assurance, IoT Products, Analytics and Emerging technologies to help our clients adapt to the Digitalization of their Business solutions and make them successful. Our Value as a Service (VaaS) strive innovative solutions and a flexible engagement approach significance our customers stay ahead of the curve, drive revenues, and enhance market position.

Automatic Inward/Outward System (AIOS)

Automatically record Purchase & Sales Goods delivery in the Warehouse, It helps to record weightage of the goods & authenticate gate **Entry/Exit**. Client can especially benefit from RFID because the technology can make internal processes more efficient and improve responsiveness

Hardware Specifications
